

The second annual WV SAR Council full-scale exercise is scheduled for September 24-26 at New River Gorge National Park. This exercise will be an excellent opportunity for your agency to practice your skills or just observe and learn more about search & rescue in WV. This year's schedule includes Map & Compass refresher, SAR Ready-pack contents, multiple missions, and concluding with technical patient extrication.

The exercise is open to all public safety agencies. For more information contact: Bill Kershner, WV SAR Coordinator @ 304.558.5380.

SAR Exercise 2010

September 24-26, 2010
New River Gorge National Park
